Introducing our first Biodegradable Nitrile glove

Biodegradable Nitrile Exam Gloves

CHEMO DRUG TESTED | TEXTURED FINGERTIPS | POWDER-FREE | PURPLE

PRIMED Sustain™ nitrile gloves are specially formulated to attract microbes found in landfills to enhance the enzymatic biodegradation of the material. Sustain™ achieves 90% biodegradability in 490 days versus 0.8% in 626 days for standard nitrile formulations. Enjoy the same reliable performance and protection you expect from a nitrile glove while supporting environmental sustainability.

Lightweight Nitrile Technology Combines strength with tactile sensitivity, allowing intricate and precise movement.

Flexible and Comfortable Fit Moves with the wearer to facilitate natural dexterity.

Fully Micro-textured with Enhanced Fingertip Texturing Provides reliable grip when handling small instruments and objects.

Biodegradable Nitrile Formulation Specially formulated to attract microbes found in landfills to enhance the enzymatic biodegradation of the material.

PrimaTouch Blueberry

NITRILE | LATEX-FREE | POWDER-FREE | ACCELERATOR-FREE | BERRY BLUE

Specially formulated without the use of any chemical accelerators or sulfur, the PrimaTouch blueberry glove protects both the wearer and patient from Type I (natural rubber latex protein) and Type IV hypersensitivities (Chemical Accelerators: Thiurams, Thiazoles & Carbamates). Advanced lightweight technology provides excellent tactile sensitivity, dexterity and strength, and the fully microtextured glove surface with enhanced finger texturing provide better grip in all conditions.

Low Dermatitis technology lowers risk of developing sensitivities or allergies and prevents aggravation of existing skin conditions.

Meets and exceeds all Health Canada standards for medical examination gloves.
